

## Deerfield

Deerfield is often referred to by many as "the center of town" in Mountainside. Educating students in grades 3-8, Deerfield staff members collaborate with the community to strike a balance between a rigorous and standards-based instructional program and the many enrichment opportunities that take place before, during, and after school hours. Information about additional enrichment opportunities can be found within the district website including links for the Parent Teacher Association and Mountainside Education Foundation. Playing an integral role in an extremely caring, close, and supportive community, Deerfield staff members pride themselves on meeting the academic, social, and emotional needs of their students. If you would like more information regarding Deerfield, please feel free to call the school at (908) 232-8828.
