

Happy Summer!

Dear 2nd Grade Families,

As the summer months approach, it is important to keep practicing the skills your child learned this year. Please find supplemental activities in our Google Classroom that correlate with the standards your child has learned this past year in 2nd grade and will continue to build upon in 3rd grade.

This work is not mandatory to complete or be brought to your child's 3rd grade teacher. These activities are simply for you and your child to have as a resource if you find it to be necessary. Please choose to complete anything you find to be helpful for your child throughout the summer months so that he/she is confident and prepared when school begins. But remember... **HAVE FUN IN THE SUN FIRST!**

Have a great summer!

The Second Grade Teachers
